### Blood Donor Application

Java

- This application helps the users to find the blood groups they needed. This also allow the facility to donate blood. The primary aim of this application is to provide the details of person or hospitals where blood is needed or available to donate.

### Safe Routes

HTML/CSS

- A project focused on identifying safe travel paths and improving navigation for users. It is mainly used in time of natural disasters, during any natural calamities like flood people can find a safe shelter.

### She Skills

HTML/CSS

<https://krishnapriya609.github.io/sheskills/>

- She skills is a platform that is build mainly for women. Through this platform women can teach their skills to other and also learn from others. Focus only on teaching and learning specially for women.

### Sales KPI Dashboard

Power BI

[https://github.com/krishnapriya609/Data-Analytics/blob/main/first\\_powerbi.pbix](https://github.com/krishnapriya609/Data-Analytics/blob/main/first_powerbi.pbix)

- Developed an interactive Power BI dashboard to monitor sales performance, profit analysis, order trends, and product performance. Utilized data visualization, KPI tracking, business intelligence, and data-driven decision-making through region-wise and category-wise sales reporting

### Customer Churn Analysis

Power BI

[https://github.com/krishnapriya609/Data-Analytics/blob/main/second\\_powerbi.pbix](https://github.com/krishnapriya609/Data-Analytics/blob/main/second_powerbi.pbix)

- Performed customer churn analysis using Power BI by analyzing customer behavior patterns and retention metrics. Generated actionable insights for customer retention, business performance optimization, and predictive decision-making..

### Automated Reporting Workbook

Excel

[https://github.com/krishnapriya609/Data-Analytics/blob/main/first\\_workbook.xlsx](https://github.com/krishnapriya609/Data-Analytics/blob/main/first_workbook.xlsx)

- Designed dynamic Excel dashboards for sales reporting, performance tracking, and reporting automation. Implemented refreshable data structures for efficient data management, reporting accuracy, and business reporting

## ACHIEVEMENTS

- Selected as a contributor in GSSoC.

## SKILLS

- HTML
- CSS
- C programming
- Data Analysis

## LANGUAGES

- English

## INTERESTS

- Explore New Things
- Paper Crafts

## COURSE

## CERTIFICATE S

### Digital 101

Future skills

### Astra 9.0 -

Volunteer

NCC SJ CET

### NASA Space

Apps Challenge

2025

Amal Jyothi

College of

Engineering

## INTERNSHIP

---

### Data Analyst

25-5-2026 to 25-6-2026

Power BI, Excel

Online

- Developed Power BI dashboards, performed customer churn analysis, and built automated Excel reporting solutions. Gained practical experience in data analysis, dashboard development, KPI monitoring, data visualization, business intelligence, and reporting automation

### Chat box using python

1-6-2026 to 30-6-2026

Python

Kottayam

- Write about what you learned or did during your internship.
